Plastic Pipes Conference Association presents
PPCA KSA Spin-Off Conference
Riyadh, Kingdom of Saudi Arabia · 12–13 April 2026

The Plastic Pipes Conference Association (PPCA) invites industry professionals, researchers, and innovators to submit high-quality technical papers for the first-ever PPCA Middle East Spin-Off Conference — a landmark new event following the success of PPXXII Warsaw.

Hosted in Riyadh, Saudi Arabia, this conference will gather the world's leading experts from across the plastic pipe value chain to discuss the latest developments, challenges, and future opportunities in one of the fastest-growing global markets.

KEY SUBJECTS FOR PPCA KSA SPIN-OFF CONFERENCE

- Oil & gas / industrial piping
- Drinking water and wastewater
- Trenchless technologies
- Stormwater systems
- Market trends and technology development
- Materials, testing, performance, and sustainability

WHY ATTEND?

- International Scope: ~50% global speakers + regional experts
- High-quality technical program aligned with PPCA's global standards
- Strong networking platform for the entire plastics pipe community
- Ideal opportunity to showcase technology and solutions in a rapidly growing market

Interested in Sponsoring, Presenting, Exhibiting or Attending?

The packages include delegate access and networking opportunity together with logo and brand recognition. The Plastic Pipes industry has always been propelled by innovation throughout the supply chain and this dedicated event provides an opportunity for organisations to promote and learn about such innovations.

Evacon Event Management will coordinate the international organization, supported by a local KSA event agency.
